Mass Legalization & Job Matching Program

The “Mass Legalization Program,” conducted under “Operation Kurangi”, aims to address expatriates working in the Maldives without valid permits, those with expired permits, or those residing without proper identification documents. As part of this initiative, the Ministry will provide job-matching services to assist expatriates seeking employment.

Accordingly, expatriates who currently do not have an employer and have updated their biometrics under “Operation Kurangi”, are requested to complete and submit the application form attached to this announcement.

Furthermore, we inform employers that if they require expatriate workers, the Ministry will facilitate recruitment arrangements through this newly established registry.

For further information, please contact the Ministry at 1485 or email
